J. W. Withey gave us a pleasant call on business the other day. He is one of the farmers of old Platte who is having success with sheep. With 300 head of good healthy sheep mostly ewes, he is enthusiastic over the business, and says he makes more out of them than he does out of cattle. Besides the three returns a year, (lamb, wool and mutton) he claims that they are the best of stock for keeping a farm clear of weeds, and enriching the soil. Lamb turned into the corn after the ear is ripe, do not disturb the grain at all, but they clear the weeds and grass from between the corn rows and leave the corn stalks in excellent shape. With wool at 21 cents per pound, Mr. Withey says there is no question as to profit on sheep,—one hundred per cent. on the investment. Besides this, land devoid of grass on account of fire or sand, with sheep running at large, soon becomes matted over. In our opinion, there is scarcely too much that can be said of the benefit to a farmer of a fine, healthy flock of good sheep.

It is reported at Atchison, Kansas, Sunday night, while George Martin was walking home with a friend, he was accosted by J. N. Reynolds, a journalist, who used vulgar language, at which the Governor remonstrated. The fellow then drew a large pistol but before he could use it, was disarmed and taken to jail. Wonder if this is the Reynolds who formerly lived here at Fullerton.

On Tuesday evening last a few of the most intimate friends of the family, met at the house of Mrs. McKim, two miles east of Duncan, and spent a very pleasant evening in commemoration of Miss Kitty's birthday.
